overview

Hooray is an independent recruitment agency in the heart of Cheltenham and covering the whole of the South West. Hooray turned to us in 2018 to support their business with our full back office solution including both credit control and payroll.

solution

In November 2018 Hooray were working with a back office provider but had concerns over the level of service they were receiving. At **giant finance+** service is what sets us apart from our competition so we knew early on that this would be a great match. Our payroll experts become an extension of the Hooray team, so they are no longer bogged down by administration and can focus on growing the business.

*"At Hooray we pride ourselves on being an ethical recruitment business delivering an excellent service to both our clients and candidates. With **giant finance+** nothing is too much trouble and the helpful team of recruitment experts are always on hand should we need anything, which makes working together all the more enjoyable!" - Ian Moriarty, Director*
